CONTRACT BETWEEN THE UNITED STATES AND
GLENN-COLUSA IRRIGATION DISTRICT,
DIVERTER OF WATER FROM SACRAMENTO RIVER SOURCES,
SETTLING WATER RIGHTS DISPUTES AND
PROVIDING FOR PROJECT WATER

THIS CONTRACT, hereinafter referred to as "Settlement Contract," is entered into by THE UNITED STATES OF AMERICA, hereinafter referred to as the United States, made this ____ day of _____, 2004, pursuant to the applicable authority granted to it generally in the Act of June 17, 1902 (32 Stat. 388), and acts amendatory or supplementary thereto, including, but not limited to, the Acts of August 26, 1937 (50 Stat. 844), as amended and supplemented, August 4, 1939 (53 Stat. 1187), as amended and supplemented, including but not limited to Sections 9 and 14 thereto, July 2, 1956 (70 Stat. 483), June 21, 1963 (77 Stat. 68), October 12, 1982 (96 Stat. 1262), October 27, 1986 (100 Stat. 3050), as amended, and Title XXXIV of the Act of October 30, 1992 (106 Stat. 4706), all collectively hereinafter referred to as Federal Reclamation law, and Glenn-Colusa Irrigation District, hereinafter referred to as the Contractor, a public agency of the State of California, duly organized, existing, and acting pursuant to the laws thereof, with its principal place of business in California;

WITNESSETH, that:

EXPLANATORY RECITALS

[1st] WHEREAS, the United States has constructed and is operating the Central Valley Project, California, for multiple purposes pursuant to its statutory authority; and

[2nd] WHEREAS, the Contractor has rights to divert, is diverting, and will continue to divert for reasonable beneficial use, water from the natural flow of the Sacramento River and tributaries thereto, that would have been flowing therein if the Central Valley Project were not in existence and from Stony Creek pursuant to the Angle Decree; and

[3rd] WHEREAS, the construction and operation of the integrated and coordinated Central Valley Project has changed and will further change the regimen of the Sacramento, American, San Joaquin, and Trinity Rivers and the Sacramento-San Joaquin Delta from unregulated flow to regulated flow; and

[4th] WHEREAS, the United States has rights to divert, is diverting, and will continue to divert waters from said Rivers and said Delta in connection with the operation of said Central Valley Project, and

[5th] WHEREAS, the Contractor and the United States had a dispute over the respective rights of the parties to divert and use water from the regulated flow of the Sacramento River which threatened to result in litigation, and as a means to settle that dispute entered into Contract No. 14-06-200-855A, as revised, hereinafter referred to as the Existing Contract, which established terms for the delivery to the Contractor of Central Valley Project Water, and the quantities of Base Supply the United States and the Contractor agreed may be diverted by the Contractor from the Sacramento River pursuant to such contract; and

[6th] WHEREAS, the United States and the Contractor disagree with respect to the authority of the United States to change the quantities of Base Supply and/or Project Water specified as available for diversion in this Settlement Contract from the quantities specified in the Existing Contract, and other issues related thereto. That dispute was the subject of litigation in a lawsuit entitled *Glenn-Colusa Irrigation District, et al. v. United States, et al.* [Civ. No. S-01-1816 GEB/JFM (E.D. Cal.)]; that litigation was dismissed, without prejudice, pursuant to a stipulation of dismissal filed by the parties thereto on August 29, 2002. Notwithstanding that dismissal, the Contractor and the United States enter into this Settlement Contract to renew the Existing Contract, pursuant to the terms of the Existing Contract, Federal Reclamation law, and the laws of the State of California; and

[7th] WHEREAS, to assure the Contractor of the enjoyment and use of the regulated flow of the said Rivers and the Delta, and to provide for the economical operation of the Central Valley Project by, and the reimbursement to, the United States for expenditures made for said Project.

NOW, THEREFORE, in consideration of the performance of the herein contained provisions, conditions, and covenants, it is agreed as follows:

DEFINITIONS

1. When used herein, unless otherwise expressed or incompatible with the intent hereof, the term:

(a) "Angle Decree" shall mean that certain judgment rendered January 13, 1930, by the United States District Court, Northern District of California, Second

1 Division, Honorable Frank H. Kerrigan, Judge, in that certain action in Equity No. 30
2 entitled “The United States of America, Plaintiff, v. H. C. Angle, et al., Defendants”.

3 (b) “Base Supply” shall mean the quantity of Surface Water
4 established in Articles 3 and 5 which may be diverted by the Contractor from the
5 Sacramento River its Source of Supply each month during the period April through
6 October of each Year without payment to the United States for such quantities diverted;

7 (c) “Basin-Wide Water Management Plan” shall mean the mutually
8 agreeable Sacramento River Basinwide Water Management Plan dated
9 _____ developed by Glenn-Colusa Irrigation District, Maxwell Irrigation District,
10 Natomas Central Mutual Water Company, Pelger Mutual Water Company, Princeton-
11 Codora-Glenn Irrigation District, Provident Irrigation District, Reclamation District 108,
12 Sutter Mutual Water Company, Anderson-Cottonwood Irrigation District, M&T, Inc.,
13 Meridian Farms Water Company, Reclamation District 1004 and the U.S. Bureau of
14 Reclamation.

15 (d) “Charges” shall mean the payments for Project Water that the
16 Contractor is required to pay to the United States in addition to the “Rates” specified in
17 this Settlement Contract. The Contracting Officer will, on an annual basis, determine the
18 extent of these Charges. The type and amount of each Charge shall be specified in
19 Exhibit D;

20 (e) “Contract Total” shall mean the sum of the Base Supply and
21 Project Water available for diversion by the Contractor for the period April 1 through
22 October 31;

(f) “Critical Year” shall mean any Year in which either of the following eventualities exists:

(1) The forecasted full natural inflow to Shasta Lake for the current Water Year, as such forecast is made by the United States on or before February 15 and reviewed as frequently thereafter as conditions and information warrant, is equal to or less than 3.2 million acre-feet; or

(2) The total accumulated actual deficiencies below 4 million acre-feet in the immediately prior Water Year or series of successive prior Water Years each of which had inflows of less than 4 million acre-feet, together with the forecasted deficiency for the current Water Year, exceed 800,000 acre-feet.

For the purpose of determining a Critical Year, the computation of inflow to Shasta Lake shall be performed in a manner that considers the extent of upstream development above Shasta Lake during the year in question, and shall be used as the full natural flow to Shasta Lake. In the event that major construction has occurred or occurs above Shasta Lake after September 1, 1963 and which has materially altered or alters the regimen of the stream systems contributing to Shasta Lake, the computed inflow to Shasta Lake used to define a Critical Year will be adjusted to eliminate the effect of such material alterations. After consultation with the State of California, the National Weather Service, and other recognized forecasting agencies, the Contracting Officer will select the forecast to be used and will make the details of it available to the Contractor. The same forecasts used by the United States for the operation of the Project shall be used to make the forecasts hereunder;

1 (g) “CVPIA” shall mean the Central Valley Project Improvement Act,
2 Title XXXIV of the Act of October 30, 1992 (106 Stat. 4706);

3 (h) “Eligible Lands” shall mean all lands to which Project Water may
4 be delivered in accordance with Section 204 of the Reclamation Reform Act of October
5 12, 1982 (96 Stat. 1263), as amended, hereinafter referred to as RRA;

6 (i) “Excess Lands” shall mean all lands in excess of the limitations
7 contained in Section 204 of the RRA, other than those lands exempt from acreage
8 limitation under Federal Reclamation law;

9 (j) “Full Cost Rate” shall mean that water rate described in Sections
10 205(a)(3) or 202(3) of the RRA, whichever is applicable;

11 (k) “Ineligible Lands” shall mean all lands to which Project Water
12 may not be delivered in accordance with Section 204 of the RRA;

13 (l) “Landholder” shall mean a party that directly or indirectly owns or
14 leases nonexempt land, as provided in 43 CFR 426.2;

15 (m) “Project” shall mean the Central Valley Project owned by the
16 United States and managed by the Department of the Interior, Bureau of Reclamation;

17 (n) “Project Water” shall mean all Surface Water diverted or
18 scheduled to be diverted each month during the period April through October of each
19 Year by the Contractor from its Source of Supply which is in excess of the Base Supply.
20 The United States recognizes the right of the Contractor to make arrangements for
21 acquisition of water from projects of others than the United States for delivery through
22 the Sacramento River and tributaries subject to written agreement between Contractor

1 and the United States as to identification of such water which water when so identified
2 shall not be deemed Project Water under this Settlement Contract;

3 (o) "Rates" shall mean the payments for Project Water determined
4 annually by the Contracting Officer in accordance with the then current applicable water
5 ratesetting policies for the Project, as described in subdivision (a) of Article 8 of this
6 Settlement Contract;

7 (p) "Secretary" or "Contracting Officer" shall mean the Secretary of
8 the Interior, a duly appointed successor, or an authorized representative acting pursuant to
9 any authority of the Secretary and through any agency of the Department of the Interior;

10 (q) "Source of Supply" shall mean the Sacramento River and Stony
11 Creek, from which the Contractor has rights to divert, has diverted, and may continue to
12 divert;

13 (r) "Surface Water" shall mean only those waters that are considered
14 as surface water under California law;

15 (s) "Water Year" shall mean the period commencing with October 1
16 of one year and extending through September 30 of the next; and

17 (t) "Year" shall mean a calendar year.

18 TERM OF SETTLEMENT CONTRACT

19 2. (a) This Settlement Contract shall become effective April 1, 2004, and
20 shall remain in effect until and including March 31, 2044: Provided, that under terms and
21 conditions mutually agreeable to the parties hereto, renewals may be made for successive
22 periods not to exceed 40 years each. The terms and conditions of each renewal shall be

1 agreed upon not later than one year prior to the expiration of the then existing Settlement
2 Contract.

3 (b) With respect to Project Water and the portions of this Settlement
4 Contract pertaining thereto, upon written request by the Contractor of the Secretary made
5 not later than one year prior to the expiration of this Settlement Contract, whenever,
6 account being taken of the amount then credited to the costs of construction of water
7 supply works, the remaining amount of construction costs of water supply work which is
8 properly assignable for ultimate return by the Contractor as established by the Secretary
9 of the Interior pursuant to (3) of Section 1 of Public Law 643 (70 Stat. 483), probably can
10 be repaid to the United States within the term of a contract under subsection 9(d) of the
11 1939 Reclamation Project Act (53 Stat. 1187), the relevant portions of this Settlement
12 Contract may be converted to a contract under said subsection 9(d) upon terms and
13 conditions mutually agreeable to the United States and the Contractor. The Secretary
14 shall make a determination 10 years after the date of execution of this Settlement
15 Contract, and every five years thereafter, of whether a conversion to a contract under said
16 subsection 9(d) can be accomplished pursuant to Public Law 643. Notwithstanding any
17 provision of this Settlement Contract, the Contractor reserves and shall have all rights and
18 benefits under Public Law 643.

19 WATER TO BE FURNISHED TO CONTRACTOR

20 3. (a) Subject to the conditions, limitations, and provisions hereinafter
21 expressed, the Contractor is hereby entitled and authorized to divert from its Source of
22 Supply at the locations shown in Exhibit A, for beneficial use within the area delineated
23 on Exhibit B, (both Exhibits are attached hereto and made a part hereof), the Contract

1 Total designated in Exhibit A, or any revision thereof, in accordance with the monthly
2 operating schedule required by Article 3(c) of this Settlement Contract. The quantity of
3 any water diverted under this Settlement Contract from its Source of Supply, during the
4 period April through October, for use on any lands delineated on Exhibit B, by the owner
5 of such lands or otherwise shall constitute a part of the Contract Total as shown on
6 Exhibit A and shall be subject to all the provisions of this Settlement Contract relating to
7 such Contract Total as if such diversion were made by the Contractor.

8 (b) The Contractor may have acquired rights to divert water from the
9 Sacramento River during the period April through October, that were obtained after the
10 date of execution of the Existing Contract, or the Contractor may acquire such rights in
11 the future. All diversions made from the Sacramento River, pursuant to such rights,
12 during the period April through October, shall not be considered a part of the quantity of
13 Base Supply and Project Water specified in Exhibit A; Provided, that the quantities
14 diverted pursuant to the above rights shall be identified on the schedule submitted
15 pursuant to Article 3(c) below, and shall not be substituted for any Base Supply or Project
16 Water; Provided, further, that any such identified quantities of other acquired rights may
17 be diverted by the Contractor before incurring any fee pursuant to Article 3(c)(1), below.

18 (c) Before April 1 and before the first day of each month thereafter
19 when a revision is needed, the Contractor shall submit a written schedule to the
20 Contracting Officer indicating the Contract Total to be diverted by the Contractor during
21 each month under this Settlement Contract. The United States shall furnish water to the
22 Contractor in accordance with the monthly operating schedule or any revisions thereof.
23 However, the United States recognizes the need of the Contractor to change from time to

time its monthly diversions of water from the quantities shown in Exhibit A; the Contractor may make such changes, provided:

(1) that for the quantity of Base Supply diverted in excess of the monthly quantity shown in Exhibit A, and as may be reduced in accordance with Article 5(a), during June, July, August, September and October of any Water Year, the Contractor shall be charged a rescheduling fee equal to 50% of the sum of the storage operations and maintenance rate and the storage capital rate components of the Project ratesetting policy.

(2) that in no event shall the total quantity scheduled for diversion by the Contractor from its Source of Supply:

(i) During the period April through October exceed the aggregate of the Contract Total for that period shown in Exhibit A or any revision thereof;

(ii) During the period July through August exceed the aggregate of the Contract Total for that period shown in Exhibit A or any revision thereof.

(d) In the event conditions warrant, the Contracting Officer reserves the right to require the Contractor to submit, at least 72 hours prior to the beginning of each weekly period, its estimate of daily diversion requirements for each such period from its Source of Supply: Provided, however, that changes during any such period may be made upon the giving of 72 hours' notice thereof to the Contracting Officer.

(e) No sale, transfer, exchange, or other disposal of any of the Contract Total designated in Exhibit A or the right to the use thereof for use on land other

1 than that shown on Exhibit B shall be made by the Contractor without first obtaining the
2 written consent of the Contracting Officer. Such consent will not be unreasonably
3 withheld and a decision will be rendered in a timely manner. For short-term actions that
4 will occur within one year or less, the decision will be rendered within 30 days after
5 receipt of a complete written proposal. For long-term actions that will occur in a period
6 longer than one year, the decision will be rendered within 90 days after receipt of a
7 complete written proposal. For a proposal to be deemed complete by the Contracting
8 Officer, it must comply with all provisions required by State and Federal law, including
9 information sufficient to enable the Contracting Officer to comply with the National
10 Environmental Policy Act, the Endangered Species Act, and applicable rules or
11 regulations then in effect; Provided that, such consent does not authorize the use of
12 Federal facilities to facilitate or effectuate the sale, transfer, exchange or other disposal of
13 Base Supply. Such use of Federal facilities will be the subject of a separate agreement to
14 be entered into between the Contractor and Reclamation.

15 (f) For the purpose of determining whether section 3405(a)(1)(M) of
16 the CVPIA applies to the Contractor as a transferor or transferee of Project Water, the
17 Contracting Officer acknowledges that the Contractor is within a county, watershed or
18 other area of origin, as those terms are utilized under California law.

19 (g) Nothing herein contained shall prevent the Contractor from
20 diverting water during the months of November through March for beneficial use on the
21 land shown on Exhibit B or elsewhere to the extent authorized under the laws of the State
22 of California.

(h) The United States assumes no responsibility for and neither it nor its officers, agents, or employees shall have any liability for or on account of:

(1) The quality of water to be diverted by the Contractor;

(2) The control, carriage, handling, use, disposal, or distribution of water diverted by the Contractor outside the facilities constructed and then being operated and maintained by or on behalf of the United States;

(3) Claims of damage of any nature whatsoever, including but not limited to, property loss or damage, personal injury, or death arising out of or connected with the control, carriage, handling, use, disposal, or distribution of said water outside of the hereinabove referred to facilities; and

(4) Any damage whether direct or indirect arising out of or in any manner caused by a shortage of water whether such shortage be on account of errors in operation, drought, or unavoidable causes.

RETURN FLOW

4. Nothing herein shall be construed as an abandonment or a relinquishment by the United States of any right it may have to the use of waste, seepage, and return flow water derived from water diverted by the Contractor hereunder and which escapes or is discharged beyond the boundaries of the lands shown on Exhibit B; Provided, that this shall not be construed as claiming for the United States any right to such water which is recovered by the Contractor pursuant to California law from either within the boundaries of the lands shown on Exhibit B or at any location in the Colusa Basin Drain north of the south boundary of Section 18, Township 14 North, Range 1 West, M. D. B. & M., and which is being used pursuant to this Settlement Contract for surface irrigation or

underground storage for the benefit of the lands shown on Exhibit B within said boundaries by the Contractor.

CONSTRAINTS ON THE AVAILABILITY OF WATER

5. (a) In a Critical Year, the Contractor's Base Supply and Project Water agreed to be diverted during the period April through October of the Year in which the principal portion of the Critical Year occurs and, each monthly quantity of said period shall be reduced by twenty-five percent.

(b) The amount of any overpayment by the Contractor shall, at its option, be refunded or credited upon amounts to become due to the United States from the Contractor under the provisions hereof in the ensuing Year. To the extent of such deficiency such adjustment of overpayment shall constitute the sole remedy of the Contractor.

INTEGRATED WATER MANAGEMENT AND PARTNERSHIPS

6. The Contractor and United States desire to work together to maximize the reasonable beneficial use of water for their mutual benefit. As a consequence, the United States and the Contractor will work in partnership and with others within the Sacramento Valley, including other Contractors, to facilitate the better integration within the Sacramento Valley of all water supplies including, but not limited to, the better management and integration of surface water and groundwater, the development and better utilization of surface water storage, the effective utilization of waste, seepage and return flow water, and other operational and management options that may be identified in the future.

USE OF WATER FURNISHED TO CONTRACTOR

7. (a) Project Water furnished to the Contractor pursuant to this Settlement Contract shall not be delivered or furnished by the Contractor for any purposes other than agricultural purposes without the written consent of the Contracting Officer. For purposes of this Settlement Contract, “agricultural purposes” includes, but is not restricted to, the watering of livestock, incidental domestic use including related landscape irrigation, or underground water replenishment.

(b) The Contractor shall comply with requirements applicable to the Contractor in biological opinion(s) prepared as a result of a consultation regarding the execution of this Settlement Contract undertaken pursuant to Section 7 of the Endangered Species Act of 1973, as amended, that are within the Contractor’s legal authority to implement. The Contractor shall comply with the limitations or requirements imposed by environmental documentation applicable to the Contractor and within its legal authority to implement. The Existing Contract, which evidences in excess of 40 years of diversions, for agricultural uses, of the quantities of water provided for in Article 3, and the underlying water rights of the Contractor will be considered in developing an appropriate base-line for the Biological Assessment prepared pursuant to the Endangered Species Act, and in any other needed environmental review. Nothing herein shall be construed to prevent the Contractor from challenging or seeking judicial relief in a court of competent jurisdiction with respect to any biological opinion or other environmental documentation referred to in this Article.

RATE AND METHOD OF PAYMENT FOR WATER

8. (a) The Contractor shall make payments to the United States as provided in this Article for all Project Water shown in Exhibit A as follows:

(1) seventy-five percent of the amount shown as Project Water shall be paid for by the Contractor in each Year; and in addition

(2) the Contractor shall pay for Project Water actually diverted in excess of seventy-five percent of the amount shown as Project Water.

Such payments shall be at Rates and Charges established in accordance with:

(i) the Secretary's then current ratesetting policies for the Project; and (ii) applicable Reclamation law and associated rules and regulations, or policies: Provided, that if the Contractor desires to use Project Water for other than agricultural use the Rates and Charges set forth above will be adjusted by the Contracting Officer to the applicable Rates and Charges for such use. The Rates and Charges applicable to the Contractor upon execution of this Settlement Contract are set forth in Exhibit D, as may be revised annually. The Secretary's ratesetting policies for the Project shall be amended, modified, or superseded only through a public notice and comment procedure. The Contracting Officer shall adjust the amount of Project Water for which payment is required to the extent of any reduction in diversions of Project Water made in accordance with the water conservation provisions of Article 29(e).

(b) The Contracting Officer shall notify the Contractor of the Rates and Charges as follows:

(1) Prior to July 1 of each Year, the Contracting Officer shall provide the Contractor an estimate of the Charges for Project Water that will be applied

1 to the period October 1, of the current Year, through September 30, of the following
2 Year, and the basis for such estimate. The Contractor shall be allowed not less than two
3 months to review and comment on such estimates. On or before September 15 of each
4 Year, the Contracting Officer shall notify the Contractor in writing of the Charges to be
5 in effect during the period October 1 of the current Year, through September 30, of the
6 following Year, and such notification shall revise Exhibit D.

7 (2) Prior to October 1 of each Year, the Contracting Officer
8 shall make available to the Contractor an estimate of the Rates for Project Water for the
9 following Year and the computations and cost allocations upon which those Rates are
10 based. The Contractor shall be allowed not less than two months to review and comment
11 on such computations and cost allocations. By December 31 of each Year, the
12 Contracting Officer shall provide the Contractor with the final Rates to be in effect for
13 the upcoming Year, and such notification shall revise Exhibit D.

14 (c) The Contractor shall pay the United States for Project Water in the
15 following manner:

16 (1) With respect to Rates, prior to May 1 of each Year, the
17 Contractor shall pay the United States one-half the total amount payable pursuant to
18 subdivision (a) of this Article and the remainder shall be paid prior to July 1 or such later
19 date or dates as may be specified by the United States in a written notice to the
20 Contractor: Provided, however, that if at any time during the Year the amount of Project
21 Water diverted by the Contractor shall equal the amount for which payment has been
22 made, the Contractor shall pay for the remaining amount of such water as shown in
23 Exhibit A in advance of any further diversion of Project Water.

1 (2) With respect to Charges, the Contractor shall also make a
2 payment to the United States, in addition to the Rate(s) in subdivision (c)(1) of this
3 Article, at the Charges then in effect, before the end of the month following the month of
4 delivery or transfer. The payments shall be consistent with the quantities of Project
5 Water delivered or transferred. Adjustment for overpayment or underpayment of
6 Charges shall be made through the adjustment of payments due to the United States for
7 Charges for the next month. Any amount to be paid for past due payment of Charges
8 shall be computed pursuant to Article 13 of this Settlement Contract.

9 (d) Payments to be made by the Contractor to the United States under
10 this Settlement Contract may be paid from any revenues available to the Contractor.

11 (1) All revenues received by the United States from the
12 Contractor relating to the delivery of Project Water or the delivery of non-Project water
13 through Project facilities shall be allocated and applied in accordance with Federal
14 Reclamation law and the associated rules or regulations, and the then current Project
15 ratesetting policies for Irrigation Water.

16 (e) The Contracting Officer shall keep its accounts pertaining to the
17 administration of the financial terms and conditions of its long-term water service and
18 Settlement Contracts, in accordance with applicable Federal standards, so as to reflect the
19 application of Project costs and revenues. The Contracting Officer shall, each Year upon
20 request of the Contractor, provide to the Contractor a detailed accounting of all Project
21 and Contractor expense allocations, the disposition of all Project and Contractor
22 revenues, and a summary of all water delivery information. The Contracting Officer and

1 the Contractor shall enter into good faith negotiations to resolve any discrepancies or
2 disputes relating to accountings, reports, or information.

3 (f) The parties acknowledge and agree that the efficient administration
4 of this Settlement Contract is their mutual goal. Recognizing that experience has
5 demonstrated that mechanisms, policies, and procedures used for establishing Rates and
6 Charges and/or for making and allocating payments, other than those set forth in this
7 Article may be in the mutual best interest of the parties, it is expressly agreed that the
8 parties may enter into agreements to modify the mechanisms, policies, and procedures for
9 any of those purposes while this Settlement Contract is in effect without amendment of
10 this Settlement Contract.

11 (g) For the term of this Settlement Contract, Rates under the respective
12 ratesetting policies for the Project will be established to recover only reimbursable
13 operation and maintenance (including any deficits) and capital costs of the Project, as
14 those terms are used in the then current Project ratesetting policies, and interest, where
15 appropriate, except in instances where a minimum Rate is applicable in accordance with
16 the relevant Project ratesetting policy. Proposed changes of significance in practices
17 which implement the ratesetting policies for the Project will not be implemented until the
18 Contracting Officer has provided the Contractor an opportunity to discuss the nature,
19 need, and impact of the proposed change.

20 (h) Except as provided in subsection 3405(a)(1)(B) of the CVPIA, the
21 Rates for Project Water transferred, exchanged, or otherwise disposed of, by the
22 Contractor shall be the Contractor's Rates adjusted upward or downward to reflect the
23 changed costs of delivery (if any) of the transferred, exchanged, or otherwise disposed of

1 Project Water to the transferee's point of delivery in accordance with the then current
2 ratesetting policies for the Project. Except as provided in subsection 3407(d)(2)(A) of the
3 CVPIA, the Charges for Project Water transferred, exchanged, or otherwise disposed of,
4 by the Contractor shall be the Contractor's Charges specified in Exhibit D. If the
5 Contractor is receiving lower Rates and Charges because of inability to pay and is
6 transferring, exchanging, or otherwise disposing of Project Water to another entity whose
7 Rates and Charges are not adjusted due to inability to pay, the Rates and Charges for
8 transferred, exchanged, or otherwise disposed of Project Water shall be the Contractor's
9 Rates and Charges unadjusted for ability to pay.

10 (i) Pursuant to the Act of October 27, 1986 (100 Stat. 3050), the
11 Contracting Officer is authorized to adjust determinations of ability to pay every five
12 years.

13 (j) Each payment to be made pursuant to subdivisions (a) and (b) of
14 this Article shall be made at the office of the Bureau of Reclamation, Mid-Pacific Region,
15 File No. 11546, P.O. Box 6000, San Francisco, California, 94160-1546, or at such other
16 place as the United States may designate in a written notice to the said Contractor.

17 Payments shall be made by cash transaction, wire, or any other mechanism as may be
18 agreed to in writing by the Contractor and the Contracting Officer. In the event there
19 should be a default in the payment of the amount due, the delinquent payment provisions
20 of Article 13 shall apply. The Contractor shall not be relieved of the whole or any part of
21 its said obligation by, on account of, or notwithstanding, as the case may be:

22 (1) Its failure, refusal, or neglect to divert seventy-five percent
23 of the quantity of Project Water shown on Exhibit A;

(2) The default in payment to it by any water user of assessments, tolls, or other charges levied by or owing to said Contractor;

(3) Any judicial determination that any assessment, toll, or other charge referred to in subsection 8(c)(2) of this Settlement Contract is irregular, void, or ineffectual; or

(4) Any injunctive process enjoining or restraining the Contractor from making or collecting any such assessment, toll, or other charge referred to in subsection 8(c)(2) of this Settlement Contract.

AGREEMENT ON WATER QUANTITIES

9. (a) During the term of this Settlement Contract and any renewals thereof:

(1) It shall constitute full agreement as between the United States and the Contractor as to the quantities of water and the allocation thereof between Base Supply and Project Water which may be diverted by the Contractor from its Source of Supply for beneficial use on the land shown on Exhibit B which said diversion, use, and allocation shall not be disturbed so long as the Contractor shall fulfill all of its obligations hereunder;

(2) Neither party shall claim any right against the other in conflict with the provisions of Article 9(a)(1) hereof.

(b) Nothing herein contained is intended to or does limit rights of the Contractor against others than the United States or of the United States against any person other than the Contractor: Provided, however, that in the event the Contractor, the United States, or any other person shall become a party to a general adjudication of rights

1 to the use of water of the Sacramento River system, this Settlement Contract shall not
2 jeopardize the rights or position of either party hereto or of any other person and the
3 rights of all such persons in respect to the use of such water shall be determined in such
4 proceedings the same as if this Settlement Contract had not been entered into, and if final
5 judgment in any such general adjudication shall determine that the rights of the parties
6 hereto are different from the rights as assumed herein, the parties shall negotiate an
7 amendment to give effect to such judgment. In the event the parties are unable to agree
8 on an appropriate amendment they shall, within 60 days of determining that there is an
9 impasse, employ the services of a neutral mediator, experienced in resolving water rights
10 disputes, to assist in resolving the impasse. The cost of the mediation will be shared
11 equally. A failure to reach agreement on an amendment within 60 days of the end of
12 mediation will cause the immediate termination of this Settlement Contract.

13 (c) In the event that the California State Water Resources Control
14 Board or a court of competent jurisdiction issues a final decision or order modifying the
15 terms and conditions of the water rights of either party to this Settlement Contract in
16 order to impose Bay-Delta water quality obligations, the Contractor and the United States
17 shall promptly meet to determine whether or not to modify any of the terms of this
18 Settlement Contract to comply with the final decision or order, including, but not limited
19 to, the applicability of the rescheduling charge in Article 3(c)(1) of this Settlement
20 Contract. If within 60 days of the date of the issuance of the final decision or order the
21 parties are not able to reach agreement regarding either the need to modify this
22 Settlement Contract or the manner in which this Settlement Contract is to be modified,
23 the parties shall promptly retain a neutral mediator, experienced in resolving water right

1 disputes, to assist the parties in resolving their dispute. The cost of the mediator shall be
2 shared equally. In the event that either of the parties to this Settlement Contract
3 determines that the parties will not be able to develop mutually-agreeable modification(s)
4 to this Settlement Contract even with the assistance of a mediator, either of the parties to
5 this Settlement Contract may attempt to resolve the impasse by seeking appropriate
6 judicial relief including, but not limited to, filing a general adjudication of the rights to
7 the use of water in the Sacramento River system. The foregoing provisions of this sub-
8 article shall only apply to the incremental obligations contained within a final decision or
9 order of the State Water Resources Control Board that reflects a modification to the
10 obligations imposed in State Water Resources Control Board Revised Water Rights
11 Decision 1641 dated March 15, 2000, and its associated 1995 Water Quality Control Plan
12 which, taken together, will be considered the baseline for the application of the
13 provisions of this sub-article.

14 (d) In the event this Settlement Contract terminates, the rights of the
15 parties to thereafter divert and use water shall exist as if this Settlement Contract had not
16 been entered into; and the fact that as a compromise settlement of a controversy as to the
17 respective rights of the parties to divert and use water and the yield of such rights during
18 the term hereof, this Settlement Contract places a limit on the Contract Total to be
19 diverted annually by the Contractor during the Settlement Contract term and segregates it
20 into Base Supply and Project Water shall not jeopardize the rights or position of either
21 party with respect to its water rights or the yield thereof at all times after the Settlement
22 Contract terminates. It is further agreed that the Contractor at all times will first use
23 water to the use of which it is entitled by virtue of its own water rights, and neither the

1 provisions of this Settlement Contract, action taken thereunder, nor payments made
2 thereunder to the United States by the Contractor shall be construed as an admission that
3 any part of the water used by the Contractor during the term of this Settlement Contract
4 was in fact water to which it would not have been entitled under water rights owned by it
5 nor shall receipt of payments thereunder by the United States from the Contractor be
6 construed as an admission that any part of the water used by the Contractor during the
7 term of this Settlement Contract was in fact water to which it would have been entitled
8 under water rights owned by it.

9 MEASUREMENT OF WATER

10 10. (a) All water diverted by the Contractor from its Source of Supply will
11 be diverted at the existing point or points of diversion shown on Exhibit A or at such
12 other points as may be mutually agreed upon in writing by the Contracting Officer and
13 the Contractor; Provided, that in any Year the United States reserves the right to require
14 that the Contractor shall divert all of its Contract Total, or any portion thereof, from
15 either the Sacramento River or Stony Creek or from each stream in the quantities
16 specified by the Contracting Officer but only if the quantities so specified to be diverted
17 from Stony Creek are available for such diversion. This proviso shall not be construed to
18 deny the Contractor its right to divert its Contract Total nor the right to divert from the
19 Sacramento River sufficient water to meet its minimum requirements north of Stony
20 Creek. Any time during the period April through October of any Year that the
21 Contracting Officer requires the Contractor to take water from the Sacramento River that
22 it would otherwise be entitled to divert from Stony Creek under its rights thereto
23 adjudicated in the Angle Decree, the Contractor authorizes the United States to divert,

1 store, or use such Stony Creek water. The Contractor also authorizes the diversion,
2 storage, or use of Stony Creek water by the United States prior to April 1 of any Year to
3 the extent of the Contractor's rights under the Angle Decree. In the event of such
4 diversion, storage, or use prior to April 1, the United States will furnish and the
5 Contractor may divert a quantity of water from the Sacramento River equivalent to the
6 quantity of such Stony Creek water so diverted, stored, or used by the United States.
7 Notwithstanding the other provisions of this subdivision, the Contractor reserves the right
8 to divert water from Stony Creek to the extent of its entitlements under the Angle Decree,
9 for periods not to exceed five consecutive days, whenever its Sacramento River pumps
10 are temporarily unable to meet its diversion requirements because said pumps are
11 partially or wholly inoperable due to an emergency or an unforeseeable cause.

12 (b) All water diverted from the Source of Supply pursuant to this
13 Settlement Contract will be measured or caused to be measured by the United States at
14 each point of diversion with existing equipment or equipment to be installed, operated,
15 and maintained by the United States, and/or others, under contract with and at the option
16 of the United States. The equipment and methods used to make such measurement shall
17 be in accordance with sound engineering practices. Upon request of the Contractor, the
18 accuracy of such measurements will be investigated by the Contracting Officer and any
19 errors appearing therein will be corrected.

20 (c) The right of ingress to and egress from all points of diversion is
21 hereby granted to all authorized employees of the United States. The Contractor also
22 hereby grants to the United States the right to install, operate, maintain and replace such

1 equipment on diversion or carriage facilities at each point of diversion as the Contracting
2 Officer deems necessary.

3 (d) The Contractor shall not modify, alter, remove, or replace
4 diversion facilities or do any other act which would alter the effectiveness or accuracy of
5 the measuring equipment installed by the United States or its representatives unless and
6 until the Contracting Officer has been notified with due diligence and has been given an
7 opportunity to modify such measuring equipment in such manner as may be necessary or
8 appropriate. In the event of an emergency the Contractor shall notify the United States
9 within a reasonable time thereafter as to the existence of the emergency and the nature
10 and extent of such modification, alteration, removal, or replacement of diversion
11 facilities.

12 (e) The Contractor shall pay the United States for the costs to repair,
13 relocate, or replace measurement equipment when the Contractor modifies, alters,
14 removes, or replaces diversion or carriage facilities.

15 (f) Contractor and Contracting Officer shall develop a mutually
16 agreeable surface water delivery water measurement program which shall be
17 implemented by the Contractor, and such measurement program shall be consistent with
18 the conservation and efficiency criteria for evaluating water conservation plans as
19 provided in Article 29(a).

20 (g) All new surface water delivery systems installed within the lands
21 delineated on Exhibit B after the effective date of this Settlement Contract shall also
22 comply with the measurement provisions described in this Article.

RULES AND REGULATIONS

11. The parties agree that the delivery of Project Water for irrigation use or use of Federal facilities pursuant to this Settlement Contract is subject to Federal Reclamation law, including but not limited to, the Reclamation Reform Act of 1982 (43 U.S.C.390aa et seq.), as amended and supplemented, and the rules and regulations promulgated by the Secretary of the Interior under Federal Reclamation law.

GENERAL OBLIGATION--BENEFITS CONDITIONED UPON PAYMENT

12. (a) The obligation of the Contractor to pay the United States as provided in this Settlement Contract is a general obligation of the Contractor notwithstanding the manner in which the obligation may be distributed among the Contractor's water users and notwithstanding the default of individual water users in their obligations to the Contractor.

(b) The payment of Charges becoming due hereunder is a condition precedent to receiving benefits under this Settlement Contract. The United States shall not make water available to the Contractor through Project facilities during any period in which the Contractor may be in arrears in the advance payment of water Rates due the United States. The Contractor shall not furnish water made available pursuant to this Settlement Contract for lands or parties which are in arrears in the advance payment of water rates levied or established by the Contractor.

(c) With respect to subdivision (b) of this Article, the Contractor shall have no obligation to require advance payment for water Rates which it levies.

CHARGES FOR DELINQUENT PAYMENTS

13. (a) The Contractor shall be subject to interest, administrative and penalty charges on delinquent installments or payments. When a payment is not received by the due date, the Contractor shall pay an interest charge for each day the payment is delinquent beyond the due date. When a payment becomes 60 days delinquent, the Contractor shall pay an administrative charge to cover additional costs of billing and processing the delinquent payment. When a payment is delinquent 90 days or more, the Contractor shall pay an additional penalty charge of six percent per year for each day the payment is delinquent beyond the due date. Further, the Contractor shall pay any fees incurred for debt collection services associated with a delinquent payment.

(b) The interest charge rate shall be the greater of the rate prescribed quarterly in the Federal Register by the Department of the Treasury for application to overdue payments, or the interest rate of one-half of one percent per month prescribed by

1 Section 6 of the Reclamation Project Act of 1939 (Public Law 76-260). The interest
2 charge rate shall be determined as of the due date and remain fixed for the duration of the
3 delinquent period.

4
5 (c) When a partial payment on a delinquent account is received, the
6 amount received shall be applied, first to the penalty, second to the administrative
7 charges, third to the accrued interest, and finally to the overdue payment.
8

9 QUALITY OF WATER

10 14. The operation and maintenance of Project facilities shall be performed in
11 such manner as is practicable to maintain the quality of raw water made available through
12 such facilities at the highest level reasonably attainable as determined by the Contracting
13 Officer. The United States does not warrant the quality of water and is under no
14 obligation to construct or furnish water treatment facilities to maintain or better the
15 quality of water.

16 WATER AND AIR POLLUTION CONTROL

17 15. The Contractor, in carrying out this Settlement Contract, shall comply
18 with all applicable water and air pollution laws and regulations of the United States and
19 the State of California, and shall obtain all required permits or licenses from the
20 appropriate Federal, State, or local authorities.

21 EQUAL OPPORTUNITY

22 16. During the performance of this Settlement Contract, the Contractor agrees
23 as follows:
24

25 (a) The Contractor will not discriminate against any employee or
26 applicant for employment because of race, color, religion, sex, or national origin. The
27 Contractor will take affirmative action to ensure that applicants are employed, and that
28 employees are treated during employment, without regard to their race, color, religion,
29 sex, or national origin. Such action shall include, but not be limited to, the following:
30 Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising;
31 layoff or termination, rates of payment or other forms of compensation; and selection for
32 training, including apprenticeship. The Contractor agrees to post in conspicuous places,

1 available to employees and applicants for employment, notices to be provided by the
2 Contracting Officer setting forth the provisions of this nondiscrimination clause.

3
4 (b) The Contractor will, in all solicitations or advertisements for
5 employees placed by or on behalf of the Contractor, state that all qualified applicants will
6 receive consideration for employment without discrimination because of race, color,
7 religion, sex, or national origin.

8
9 (c) The Contractor will send to each labor union or representative of
10 workers with which it has a collective bargaining agreement or other contract or
11 understanding, a notice, to be provided by the Contracting Officer, advising the said labor
12 union or workers' representative of the Contractor's commitments under Section 202 of
13 Executive Order No. 11246 of September 24, 1965, as amended, and shall post copies of
14 the notice in conspicuous places available to employees and applicants for employment.

15
16 (d) The Contractor will comply with all provisions of Executive Order
17 No. 11246 of September 24, 1965, as amended, and of the rules, regulations, and relevant
18 orders of the Secretary of Labor.

19
20 (e) The Contractor will furnish all information and reports required by
21 said amended Executive Order and by the rules, regulations, and orders of the Secretary
22 of Labor, or pursuant thereto, and will permit access to its books, records, and accounts
23 by the Contracting Officer and the Secretary of Labor for purposes of investigation to
24 ascertain compliance with such rules, regulations, and orders.

25
26 (f) In the event of the Contractor's noncompliance with the
27 nondiscrimination clauses of this Settlement Contract or with any of the said rules,
28 regulations, or orders, this Settlement Contract may be canceled, terminated, or
29 suspended, in whole or in part, and the Contractor may be declared ineligible for further
30 Government contracts in accordance with procedures authorized in said amended
31 Executive Order, and such other sanctions may be imposed and remedies invoked as
32 provided in said Executive Order, or by rule, regulation, or order of the Secretary of
33 Labor, or as otherwise provided by law.

34
35 (g) The Contractor will include the provisions of paragraphs (a)
36 through (g) in every subcontract or purchase order unless exempted by the rules,
37 regulations, or orders of the Secretary of Labor issued pursuant to Section 204 of said
38 amended Executive Order, so that such provisions will be binding upon each
39 subcontractor or vendor. The Contractor will take such action with respect to any
40 subcontract or purchase order as may be directed by the Secretary of Labor as a means of
41 enforcing such provisions, including sanctions for noncompliance: Provided, however,
42 that in the event the Contractor becomes involved in, or is threatened with, litigation with
43 a subcontractor or vendor as a result of such direction, the Contractor may request the
44 United States to enter into such litigation to protect the interests of the United States.

1 COMPLIANCE WITH CIVIL RIGHTS LAWS AND REGULATIONS

2
3 17. (a) The Contractor shall comply with Title VI of the Civil Rights Act
4 of 1964 (42 U.S.C. 2000d), Section 504 of the Rehabilitation Act of 1975 (P.L. 93-112,
5 as amended), the Age Discrimination Act of 1975 (42 U.S.C. 6101, et seq.) and any other
6 applicable civil rights laws, as well as with their respective implementing regulations and
7 guidelines imposed by the U.S. Department of the Interior and/or Bureau of Reclamation.
8

9 (b) These statutes require that no person in the United States shall, on
10 the grounds of race, color, national origin, handicap, or age, be excluded from
11 participation in, be denied the benefits of, or be otherwise subjected to discrimination
12 under any program or activity receiving financial assistance from the Bureau of
13 Reclamation. By executing this Settlement Contract, the Contractor agrees to
14 immediately take any measures necessary to implement this obligation, including
15 permitting officials of the United States to inspect premises, programs, and documents.
16

17 (c) The Contractor makes this agreement in consideration of and for
18 the purpose of obtaining any and all Federal grants, loans, contracts, property discounts,
19 or other Federal financial assistance extended after the date hereof to the Contractor by
20 the Bureau of Reclamation, including installment payments after such date on account of
21 arrangements for Federal financial assistance which were approved before such date.
22 The Contractor recognizes and agrees that such Federal assistance will be extended in
23 reliance on the representations and agreements made in this Article, and that the United
24 States reserves the right to seek judicial enforcement thereof.
25

26 MINGLING OF CONTRACTOR'S PROJECT AND NON-PROJECT WATER

27 18. (a) Project Water must of necessity be transported by the Contractor to
28 its water users by means of the same works and channels used for the transport of its non-
29 Project Water including Base Supply. Notwithstanding such mingling of water, the
30 provisions of Article 11 hereof shall be applicable only to Project Water, and such
31 mingling of water shall not in any manner subject to the provisions of Article 11 hereof
32 the Contractor's non-Project water including Base Supply.

33 (b) If required in accordance with subdivision (c) of this Article, the
34 Contractor shall install and maintain such measuring equipment and distribution facilities
35 and maintain such records as may be necessary to determine the amounts of water
36 delivered to Excess Lands served by the Contractor. The Contractor shall not within any

1 month deliver to Ineligible Lands water in excess of the non-Project Water, including
2 Base Supply, for that month. The Contracting Officer or authorized representative shall
3 have the right at all reasonable times to inspect such records and measuring equipment.

4 (c) The Contractor will not be considered in violation of the
5 requirement that Project Water be delivered only to Eligible Lands during any month of
6 the irrigation season that the water requirement for beneficial use on Eligible Lands for
7 that month is equal to or in excess of the Project Water for that month as shown on
8 Exhibit A or any revision thereof pursuant to subdivision (c) of Article 3. The water
9 requirement for beneficial use on Eligible Lands will be determined by multiplying:

10 (1) the number of irrigable acres of the particular types of
11 crops grown in that year on the acreage designated as eligible by

12 (2) the Unit Duties as set forth in Exhibit C attached hereto and
13 made a part hereof, or by such other Unit Duties mutually agreed upon by the Contractor
14 and the Contracting Officer. In order to make the computation of the water requirement
15 for Eligible Lands, on April 1 of each Year and concurrently with its order for water for
16 the irrigation season, the Contractor shall designate the acreage of and type of crops to be
17 grown on its Eligible Lands that irrigation season. During any month the water
18 requirement as above determined for crops growing on Eligible Lands during such month
19 is equal to or in excess of the Project Water for that month as provided herein the
20 Contractor shall not be required to measure the water delivered to Excess Lands. Any
21 month the said water requirement is less than the amount of Project Water as provided
22 herein, the Contractor will be required to measure water delivered to excess land in
23 accordance with subdivision (b) hereof.

BOOKS, RECORDS, AND REPORTS

19. The Contractor shall establish and maintain accounts and other books and records pertaining to administration of the terms and conditions of this Settlement Contract, including: the Contractor's financial transactions, water supply data, and Project land and right-of-way agreements; the water users' land-use (crop census), land ownership, land-leasing and water use data; and other matters that the Contracting Officer may require. Reports thereon shall be furnished to the Contracting Officer in such form and on such date or dates as the Contracting Officer may require. Subject to applicable Federal laws and regulations, each party to this Settlement Contract shall have the right during office hours to examine and make copies of each other's books and official records relating to matters covered by this Settlement Contract.

CHANGE OF PLACE OF USE OR ORGANIZATION

20. (a) Unless the written consent of the United States is first obtained no change shall be made in the place of water use shown on Exhibit B.

(b) While this Settlement Contract is in effect, no change shall be made in the area of the Contractor as shown on its Exhibit B, by inclusion, exclusion, annexation or detachment of lands, by dissolution, consolidation, or merger or otherwise, except upon the Contracting Officer's written consent thereto; Provided, that the Contracting Officer's written consent will not be required for inclusion of the lands identified as the inclusion area on Exhibit B. Such consent will not be unreasonably withheld and a decision will be provided in a timely manner.

(c) In the event lands are annexed to or detached from the area of the Contractor, as provided herein, the quantity of Project Water to be diverted may be increased or decreased, as may be appropriate, pursuant to a supplemental agreement to be executed in respect thereto.

CONSOLIDATION OF CONTRACTING ENTITIES

21. Consolidation of Contractors may be approved by the Contracting Officer provided: (i) the Contracting Officer approves the form and organization of the resulting

1 entity and the utilization by it of the Contract Total; and (ii) the obligations of the
2 Contractors are assumed by such entity.

3 No such consolidation shall be valid unless and until approved by the Contracting
4 Officer.

5 NOTICES

6 22. Any notice, demand, or request authorized or required by this Settlement
7 Contract shall be deemed to have been given, on behalf of the Contractor, when mailed,
8 postage prepaid, or delivered to the Area Manager, Northern California Area Office,
9 Bureau of Reclamation, 16349 Shasta Dam Blvd., Shasta Lake, California, 96019, and on
10 behalf of the United States, when mailed, postage prepaid, or delivered to the Board of
11 Directors of the Glenn-Colusa Irrigation District, 344 E. Laurel Street, Willows, CA
12 95988. The designation of the addressee or the address may be changed by notice given
13 in the same manner as provided in this Article for other notices.

14
15 ASSIGNMENT LIMITED--SUCCESSORS AND ASSIGNS OBLIGATED

16
17 23. (a) The provisions of this Settlement Contract shall apply to and bind
18 the successors and assigns of the parties hereto, but no assignment or transfer of this
19 Settlement Contract or any right or interest therein shall be valid until approved in writing
20 by the Contracting Officer.

21
22 (b) The assignment of any right or interest in this Settlement Contract
23 by either party shall not interfere with the rights or obligations of the other party to this
24 Settlement Contract absent the written concurrence of said other party.

25
26 (c) The Contracting Officer shall not unreasonably condition or
27 withhold his approval of any proposed assignment.

28
29 OFFICIALS NOT TO BENEFIT

30
31 24. (a) No Member of or Delegate to Congress, Resident Commissioner,
32 or official of the Contractor shall benefit from this Settlement Contract other than as a
33 water user or landowner in the same manner as other water users or landowners.

34
35 (b) No officer or member of the governing board of the Contractor
36 shall receive any benefit that may arise by reason of this Settlement Contract other than
37 as a landowner within the Contractor's service area and in the same manner as other
38 landowners within the said service area.

1 CONTINGENT UPON APPROPRIATION OR ALLOTMENT OF FUNDS

2
3 25. The expenditure or advance of any money or the performance of any
4 obligation of the United States under this Settlement Contract shall be contingent upon
5 appropriation or allotment of funds. Absence of appropriation or allotment of funds shall
6 not relieve the Contractor from any obligations under this Settlement Contract. No
7 liability shall accrue to the United States in case funds are not appropriated or allotted.
8

9 CONFIRMATION OF SETTLEMENT CONTRACT

10 26. The Contractor, after the execution of this Settlement Contract, shall
11 promptly seek to secure a decree of a court of competent jurisdiction of the State of
12 California, if appropriate, confirming the execution of this Settlement Contract. The
13 Contractor shall furnish the United States a certified copy of the final decree, the
14 validation proceedings, and all pertinent supporting records of the court approving and
15 confirming this Settlement Contract, and decreeing and adjudging it to be lawful, valid,
16 and binding on the Contractor. This Settlement Contract shall not be binding on the
17 United States until such final decree has been secured.
18

19 UNAVOIDABLE GROUNDWATER PERCOLATION

20 27. To the extent applicable, the Contractor shall not be deemed to have
21 delivered Project Water to Excess Lands or Ineligible Lands if such lands are irrigated
22 with groundwater that reaches the underground strata as an unavoidable result of the
23 delivery of Project Water by the Contractor to Eligible Lands.

24 PRIVACY ACT COMPLIANCE

25
26 28. (a) The Contractor shall comply with the Privacy Act of 1974 (5
27 U.S.C. 552a) (the Act) and the Department of the Interior rules and regulations under the
28 Act (43 CFR 2.45 et seq.) in maintaining Landholder acreage certification and reporting
29 records, required to be submitted to the Contractor for compliance with Sections 206 and
30 228 of the Reclamation Reform Act of 1982 (96 Stat. 1266), and pursuant to 43 CFR
31 426.18.
32

33 (b) With respect to the application and administration of the criminal
34 penalty provisions of the Act (5 U.S.C. 552a(i)), the Contractor and the Contractor's
35 employees responsible for maintaining the certification and reporting records referenced
36 in (a) above are considered to be employees of the Department of the Interior. See 5
37 U.S.C. 552a(m).
38

39 (c) The Contracting Officer or a designated representative shall
40 provide the Contractor with current copies of the Interior Department Privacy Act

1 regulations and the Bureau of Reclamation Federal Register Privacy Act System of
2 Records Notice (Acreage Limitation--Interior, Reclamation-31) which govern the
3 maintenance, safeguarding, and disclosure of information contained in the Landholder's
4 certification and reporting records.

5
6 (d) The Contracting Officer shall designate a full-time employee of the
7 Bureau of Reclamation to be the System Manager who shall be responsible for making
8 decisions on denials pursuant to 43 CFR 2.61 and 2.64 amendment requests pursuant to
9 43 CFR 2.72. The Contractor is authorized to grant requests by individuals for access to
10 their own records.

11
12 (e) The Contractor shall forward promptly to the System Manager
13 each proposed denial of access under 43 CFR 2.64; and each request for amendment of
14 records filed under 43 CFR 2.71; notify the requester accordingly of such referral; and
15 provide the System Manager with information and records necessary to prepare an
16 appropriate response to the requester. These requirements do not apply to individuals
17 seeking access to their own certification and reporting forms filed with the Contractor
18 pursuant to 43 CFR 426.18, unless the requester elects to cite the Privacy Act as a basis
19 for the request.
20
21

22 WATER CONSERVATION

23 29. (a) Prior to the diversion of Project Water, the Contractor shall be
24 implementing an effective water conservation and efficiency program based on the
25 Basin-Wide Water Management Plan and/or Contractor's water conservation plan that
26 has been determined by the Contracting Officer to meet the conservation and efficiency
27 criteria for evaluating water conservation plans established under Federal law. The water
28 conservation and efficiency program shall contain definite water conservation objectives,
29 appropriate economically feasible water conservation measures, and time schedules for
30 meeting those objectives. Continued diversion of Project Water pursuant to this
31 Settlement Contract shall be contingent upon the Contractor's continued implementation
32 of such water conservation program. In the event the Contractor's water conservation
33 plan or any revised water conservation plan completed pursuant to subdivision (c) of
34 Article 29 of this Settlement Contract have not yet been determined by the Contracting

1 Officer to meet such criteria, due to circumstances which the Contracting Officer
2 determines are beyond the control of the Contractor, Project Water deliveries shall be
3 made under this Settlement Contract so long as the Contractor diligently works with the
4 Contracting Officer to obtain such determination at the earliest practicable date, and
5 thereafter the Contractor immediately begins implementing its water conservation and
6 efficiency program in accordance with the time schedules therein.

7 (b) The Contractor shall submit to the Contracting Officer a report on
8 the status of its implementation of the water conservation plan on the reporting dates
9 specified in the then existing conservation and efficiency criteria established under
10 Federal law.

11 (c) At five year intervals, the Contractor shall revise its water
12 conservation plan to reflect the then current conservation and efficiency criteria for
13 evaluating water conservation plans established under Federal law and submit such
14 revised water management plan to the Contracting Officer for review and evaluation.
15 The Contracting Officer will then determine if the water conservation plan meets
16 Reclamation's then current conservation and efficiency criteria for evaluating water
17 conservation plans established under Federal law.

18 (d) If the Contractor is engaged in direct ground-water recharge, such
19 activity shall be described in the Contractor's water conservation plan.

20 (e) In order to provide incentives for water conservation, the
21 Contracting Officer may reduce the amount of Project Water for which payment by the
22 Contractor is required under Article 8(a) in accordance with the provisions of this Article
23 29(e).

(1) On or before February 15 of any Water Year, the Contractor may file with Reclamation an offer to reduce Project Water use, hereinafter referred to as Offer. The Offer shall specify the maximum quantity of Project Water to be diverted by the Contractor for each month that Project Water is available for that Water Year under this Settlement Contract. The Contracting Officer shall provide the Contractor with a decision, in writing, to the Offer on or before March 15 of that Water Year. The dates specified in this Article 29 (e)(1) can be changed if mutually agreed to, in writing, by the Contractor and Contracting Officer.

(2) If Reclamation accepts the Offer, the Contractor's payment obligation under Article 8(a)(1) shall be reduced to the maximum quantity of Project Water to be diverted by the Contractor as specified in the Offer. The Contractor shall not divert Project Water in excess of the quantities set forth in the Offer: Provided, however, if the Contractor's diversions of Project Water exceed the quantities set forth in the Offer, the Contractor shall pay to Reclamation the applicable Rates and Charges plus an amount equal to the applicable Rates and Charges, unadjusted for ability to pay, for each acre-foot of Project Water diverted in excess of the quantities set forth in the Offer.

(3) If Reclamation decides not to accept the Offer, the Contractor's payment obligation will remain as specified in Article 8(a)(1).

(4) The provisions of this Article 29(e) shall be in addition to and shall not affect the provisions of Article 3(e) pertaining to the sale, transfer, exchange or other disposal of the Contract Total designated in Exhibit A.

OPINIONS AND DETERMINATIONS

1 30. (a) Where the terms of this Settlement Contract provide for actions to
2 be based upon the opinion or determination of either party to this Settlement Contract,
3 said terms shall not be construed as permitting such action to be predicated upon
4 arbitrary, capricious, or unreasonable opinions or determinations. Both parties,
5 notwithstanding any other provisions of this Settlement Contract, expressly reserve the
6 right to seek relief from and appropriate adjustment for any such arbitrary, capricious, or
7 unreasonable opinion or determination. Each opinion or determination by either party
8 shall be provided in a timely manner. Nothing in subdivision (a) of Article 30 of this
9 Settlement Contract is intended to or shall affect or alter the standard of judicial review
10 applicable under Federal law to any opinion or determination implementing a specific
11 provision of Federal law embodied in statute or regulation.

12 (b) The Contracting Officer shall have the right to make
13 determinations necessary to administer this Settlement Contract that are consistent with
14 the provisions of this Settlement Contract, the laws of the United States and of the State
15 of California, and the rules and regulations promulgated by the Secretary of the Interior.
16 Such determinations shall be made in consultation with the Contractor to the extent
17 reasonably practicable.

18 CONTRACTOR TO PAY CERTAIN MISCELLANEOUS COSTS

19 31. (a) In addition to all other payments to be made by the Contractor
20 pursuant to this Settlement Contract, the Contractor shall pay to the United States, within
21 60 days after receipt of a bill and detailed statement submitted by the Contracting Officer
22 to the Contractor for such specific items of direct cost incurred by the United States for
23 work requested by the Contractor associated with this Settlement Contract plus indirect

1 costs in accordance with applicable Bureau of Reclamation policies and procedures. All
2 such amounts referred to in this Article shall not exceed the amount agreed to in writing
3 in advance by the Contractor. This Article shall not apply to costs for routine contract
4 administration.

5 (b) All advances for miscellaneous costs incurred for work requested
6 by the Contractor pursuant to Article 31 of this Settlement Contract shall be adjusted to
7 reflect the actual costs when the work has been completed. If the advances exceed the
8 actual costs incurred, the difference will be refunded to the Contractor. If the actual costs
9 exceed the Contractor's advances, the Contractor will be billed for the additional costs
10 pursuant to Article 31 of this Settlement Contract.

11 WAIVER OF DEFAULT

12 32. The waiver by either party to this Settlement Contract as to any default
13 shall not be construed as a waiver of any other default or as authority of the other party to
14 continue such default or to make, do, or perform, or not to make, do, or perform, as the
15 case may be, any act or thing which would constitute a default.
